

ORIGINAL & STEEL PUTTY

- ✦ From the originators of two-part epoxy.
- ✦ Hand mouldable adhesive which sets very hard.;
- ✦ Non-flammable;
- ✦ Sets under water;
- ✦ Available in 2kg packs in white and black;
- ✦ Very hard and abrasion resistant;

- ✦ Exceptionally high strength;
- ✦ Hand mouldable;
- ✦ Sets in 20 minutes;
- ✦ Once set, like the original putty, it can be cut, sanded, machined, sawed, drilled and tapped;
- ✦ Works well as an electrical insulator;
- ✦ Accepts paint;

- ✦ Same as the original putty but sets in a steel colour;
- ✦ Accepts paint;
- ✦ All putties adhere to most rigid materials;
- ✦ Withstands most chemicals, mild acids, oil and petrol.

"It is Pratley policy to manufacture and market products, the performance of which, must at all times exceed that of any other directly competing product on the World Market! We invite you to put this statement to the test."

K.G.M. Pratley (Group C.E.O.)
